

Target Market Determination – Option Issue

Made by: LBT Innovations Limited ACN 107 670 673 of 16 Anster Street, Adelaide SA 5000
(**Company**)

Product: Unlisted free-attaching options (**Options**) issued in connection with a non-renounceable entitlement offer under a transaction specific prospectus dated 25 October 2022
(**Prospectus**)

Effective Date: 1 November 2022

1. About this document

This target market determination (**TMD**) has been prepared by the Company in relation to an offer to issue Options made by the Company under the Prospectus pursuant to section 713 of the *Corporations Act 2001* (Cth) (**Corporations Act**). Pursuant to the Prospectus, each Eligible Shareholder is entitled to apply for one (1) free-attaching Option for every three (3) new fully paid ordinary shares (**Shares**) subscribed for under the non-renounceable entitlement offer announced on 25 October 2022 (**Entitlement Offer**).

This TMD sets out the class of consumers for which the Options would likely be consistent with their financial objectives, the distribution conditions and restrictions imposed on the distribution of the Options as well as reporting requirements for distributors in accordance with the requirements of section 994B of the Corporations Act.

A copy of the Prospectus is available on the Company's website, <https://www.lbtinnovations.com/>.

The Entitlement Offer will be made under, or accompanied by, a copy of the Prospectus. Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus. Any recipient of this TMD who wants to acquire Options under the Entitlement Offer will need to follow the instructions set out in the personalised Entitlement and Acceptance Form available at www.computersharecas.com.au/lbt-nrei, which also contains a copy of the Prospectus. There is no cooling off period in respect of the issue of the Options. This TMD is not a disclosure document for the purposes of the Corporations Act, and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**).

This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision. The Company is not licensed to provide financial product advice in relation to the Options.

Unless otherwise defined in this TMD, capitalised terms have the meaning given to them in the Prospectus.

2. Target Market

The table below summarises the overall class of consumers that fall within the target market for Options, based on the product's key attributes and the objectives, financial situation and needs that it has been designed to meet.

Factor	Target Market
Investment Objective	The Company expects that an investment in the Options will be suitable to investors who have the right, but not the obligation, to gain exposure to equities in a small market capitalisation medical technology company listed on the Australian Securities Exchange (ASX).
Investment Timeframe	The target market of investors will take a short to long term outlook in relation to their investment in the Company and are in a financial position that is sufficient for them to invest their funds over the 2-year period from the issue of the Options to their expiry, should they wish to exercise their Options.
Investment Metrics	While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potentially large fluctuations and the potential for losses in the value of their investment. The Options offer no guaranteed income or capital protection.
Risks	<p>The Company considers that an investment in the Options is high risk and highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment.</p> <p>Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Options as an asset class generally and the high risks of investing in the Company.</p>

3. Distribution Conditions

Only existing shareholders of the Company who subscribed for Shares under the Entitlement Offer who:

- (a) are a registered holder of a Share as at 7:00pm (ACDT) on 28 October 2022 (being the record date for the Entitlement Offer);
- (b) have a registered address, on the Company share register, in Australia or New Zealand, or are located in France, Germany or Singapore (subject to the foreign jurisdiction restrictions set out in the Prospectus);
- (c) are not a Foreign Shareholder; and
- (d) are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds Shares and is acting for the account or benefit of a person in the United States),

will be entitled to participate in the offer of Options under the Prospectus (**Eligible Shareholders**).

A copy of the Prospectus and access to this TMD will be made available to Eligible Shareholders before they apply for Options.

The Company considers that these distribution conditions will ensure that persons who invest in Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

4. Review Triggers

The Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the Options will no longer be available for investment. It follows that the TMD will only apply in the

period between the commencement of the offer of the Options and the issue of the Options shortly after the close of the Entitlement Offer (**Offer Period**), after which the TMD will be withdrawn.

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Entitlement Offer and should be reviewed, the following review triggers apply for the Offer Period:

- (a) there is a material change to the Options' key attributes that make it no longer consistent with the likely objectives, financial situation and needs of clients in the target market;
- (b) the Company lodges with ASIC a supplementary or replacement prospectus in relation to the Prospectus;
- (c) the occurrence of a significant dealing in Options that is not consistent with this TMD;
- (d) the Company identifies a substantial divergence in how the Options are being distributed and purchased from this TMD;
- (e) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Options or this TMD; and
- (f) material changes to the regulatory environment that applies to an investment in the Options.

The Company may also amend this TMD at any time.

5. Review Period

If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger as soon as reasonably practicable and, in any case, within five business days of the review trigger occurring.

The Company will otherwise complete a review of the TMD immediately prior to the issue of Options under the Entitlement Offer.

Periodic reviews of the TMD will not occur during the Offer Period, noting that the Offer Period is (subject to any decision to extend) less than one month. If the Offer Period is extended for more than one month, the TMD will be reviewed on a monthly basis.

6. Information Reporting
